

# Static Grounding Reel

## JDI-SGR75

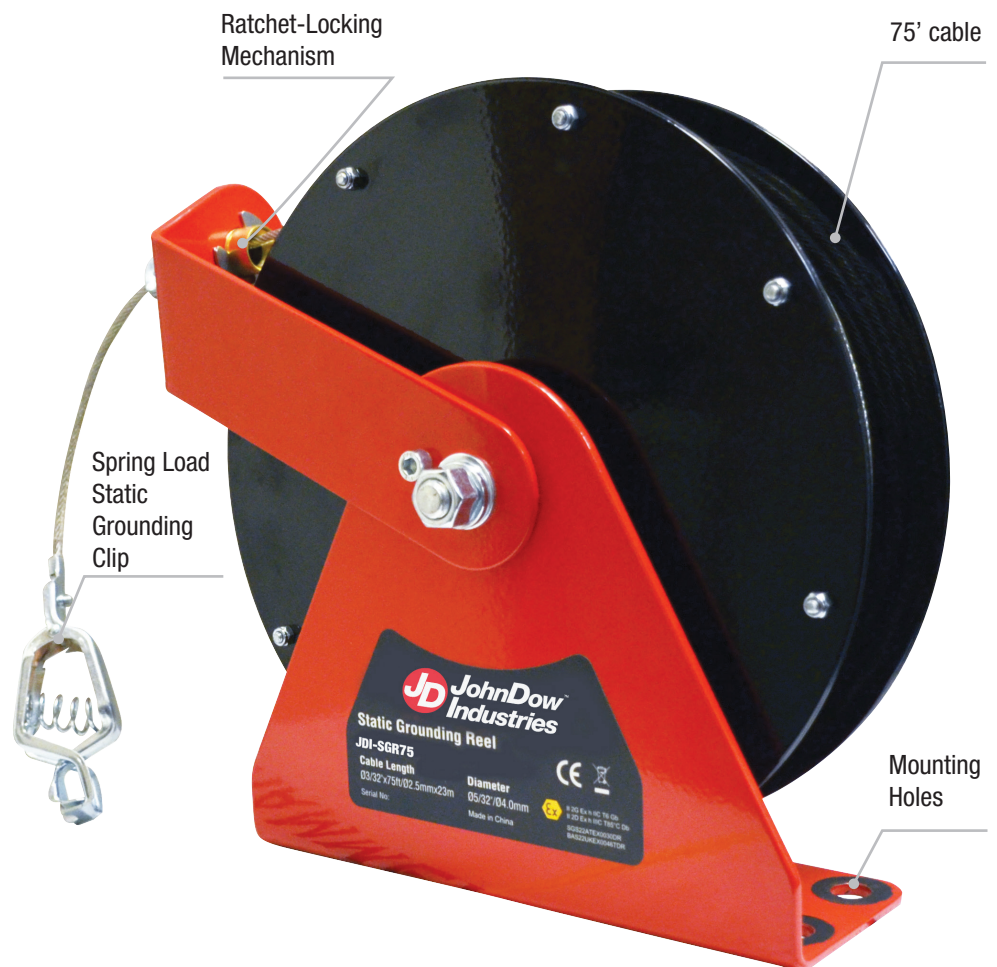

### NOTABLE FEATURES

- Easily transports and fits in any area with compact design
- Slow retraction
- Stop at any point with ratchet-locking mechanism
- Auto release during wire over stretching for reliable safety
- 75 ft. cable length
- 3 Mounting options (ground, wall, ceiling) with mounting template
- Adjustable hose stop
- Zinc-coated carbon steel cable
- Outer Coating features TPU Polyurethane which is more durable than nylon and vinyl

### IDEAL FOR

- Refueling stations
- Fuel tanks
- Stationary and mobile fuel delivery trucks
- Maintenance/industrial
- Aviation refueling
- Any hazardous areas with potentially dangerous static electricity

When you need a grounding wire while working with fuel products, this compact Static Grounding Reel is the safe solution. The static grounding reel includes slow retraction, a ratchet-locking mechanism and auto-release during wire over-stretching to maintain safety at all times.

### Specifications

Specifications	JDI-SGR75
Dimension	10"L x 10"H x 4"W
Diameter of Carbon Steel Cable	3/32" (2.5mm)
Diameter of Transparent Outing Coating (and overall diameter)	5/32" (4mm)
Inner Wire Material	Zinc-Coated Carbon Steel
Outer Coating Material	TPU Polyurethane
Weight	18 lbs.
